Uncleaned empty packaging class 5.2 Organic Peroxides					
Uncleaned empty packaging class 6.1 Toxic substances					
Uncleaned empty packaging class 8 Corrosive substances					
Uncleaned empty packaging class 9 Miscellaneous dangerous substances					
Remarks					

The customer declares that provided classification data is correct and packaging units meet the following requirements:

- 1) units are empty
- 2) units are free from outside contamination and hermetically closed
- 3) not damaged and reusable
- 4) meet ADR provisions if substances are classified (UN approved)
- 5) Filler, filling good and and filling good classification clearly indicated, all markings are intact
- 6) No product other than indicated had been filled into the IBC
- 7) MSDS are available and will be submitted on request.

All IBCs will be assessed by qualified personnel on inbound in the final destination, where any non conformance will be recorded. Any preassessment by the driver is tentative and non-binding. If the IBCs do not meet the conditions set out above, NCG is authorised:

- 1) Rejecting the pickup
- 2) Charging the emptier for the disposal of product residues or non reusable IBCs
- 3) Charging incremental freight expenses for pickups where the number of IBCs does not match the number in the request

Drivers will be granted access to the collection point so he or she can observe the loading of the truck.

I agree to the terms and conditions set out above
